

## Pincourt Inaugurates the Art Pathway

Press Release | Mai 29, 2024  
For Immediate Release

Today, the Town of Pincourt is proud to inaugurate the Art Pathway project, an initiative aimed at highlighting culture and enhancing the landscape. The artistic design of the footbridge began in the fall of 2023, and several partnerships were necessary, including an agreement with the Ministère de la Culture et des Communications.

### An Artistic and Collective Initiative

The project consists of two sections of artworks. The first part, themed around neighbourhood life, is located between Bellevue Street and Loiselle Street and was created using recycled materials. The second part, themed around trees, is located between Loiselle Street and Cardinal-Léger Boulevard. To ensure the longevity of the artworks, they have been treated to withstand Quebec's four seasons. The goal is to adorn the fences with beautiful works of art, highlighting the district and vegetation of Pincourt.

### A Fruitful and Generous Collaboration

The Town of Pincourt's Design Committee played a key role in setting up this project. More than 30 dedicated volunteers contributed their time and effort for free to create these artworks. In addition to the important collaboration of the Recreation and Public Works Department.

The Town wishes to thank all the financial collaborators who made this project possible: the Ministère de la Culture et des Communications, Vaudreuil Member of Parliament Marie-Claude Nichols, Polymos, NWCN, Action Comité Pincourt, Tennis Pincourt, the Healthy Town Committee, and Canadian Tire.

"The Art Pathway represents a significant investment in the culture and unity of our community. This project beautifies our urban spaces while showcasing our local artists. The result is magnificent!" proudly declares Claude Comeau, Mayor of Pincourt.

"I am extremely grateful to everyone who contributed to the realization of this project. The local artists have put their hearts into it, giving back to the community. This artistic achievement is unique because it was entirely carried out voluntarily. Thanks to this collective commitment, Pincourt artists have been discovered," mentions Denise Bergeron, President of the Pincourt Design Committee and Municipal Councillor.

Residents and visitors are invited to admire the Pathway and celebrate this unique achievement.
